EC series

EPRC10-EC

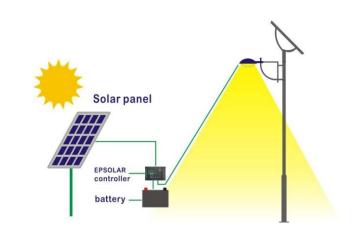

SOLAR LIGHT CONTROLLER

Rated Current: 10A System Voltage: 12/24V Auto Work

Load work mode:

Dusk to Dawn, Light ON+ timer, TEST, ON/OFF EPRC10-EC series is a reliable and economical solar controller.

- Intelligent System Optimum Control
- 12/24V auto work
- •High efficient Series PWM charging with temperature compensation
- •Use MOSFET as electronic switch, without any mechanical switch
- •Detects day and night using the PV array
- Load and battery status indicators
- •Electronic protection: over charging, over discharging, overload, and short circuit

Application :

Ideal for off-grid solar lighting system that needs light and timer control

- ★Solar street light system
- \star Solar garden light system
- ★ Solar billboard
- \star Solar detection equipment at night

Model selection:

EPRC10-EC 10A, 12/24V AUTO Ideal for off-grid solar system up to 120W, 12V or 270W, 24V

Our Advantage:

 \star Sophisticated R&D has over 20 years research experience's and works in close collaboration with Beihang University.

- \star Professional technical and service team
- \star Using world top class electronic components; all the components are industrial grade
- \star High quality products with reasonable price; the failure rate is less than 2 per1000 pcs
- \star Practical application in more than 120 countries
- ★ Expected 10 years lifetime
- ★ 2 years warranty
